PROFESSIONAL SUMMARY

Data Analyst fresher skilled in SQL, Python, and Power BI with experience in data cleaning, EDA, and dashboard creation to generate actionable business insights and support data-driven decision-making.

SKILLS

- Programming Languages: Python, SQL
- Tools & Technologies: GitHub, Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP), Jupyter Notebook, Google Colab, Tableau, Power BI
- Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis, Data Interpretation
- Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- Databases: MySQL, PostgreSQL
- SQL Skills: Joins (INNER, LEFT, RIGHT), Subqueries, Window Functions, Aggregations, Group By
- Concepts: Dashboard Creation, Business Intelligence, KPI Reporting, Problem Solving, Data Storytelling

EDUCATION

- B.Tech – Computer Science(Artificial Intelligence) | Graphic Era University, Dehradun.
CGPA: 6.962 / 10 (till 5th semester)
- XII (CBSE) | JP Academy , Meerut.
87% | 2022
- X (CBSE) | JP Academy , Meerut.
90.02% | 2020

PROJECTS

❖ Customer Trends Analysis:

- **GitHub:** https://github.com/anushka13-alt/customer_behavior_analysis
 - Analyzed 1000+ customer transactions to identify purchasing patterns and behavioral trends
 - Performed data cleaning and preprocessing using Python (Pandas, NumPy)
 - Conducted Exploratory Data Analysis (EDA) to uncover key insights on customer demographics and buying behavior
 - Visualized trends and patterns using Matplotlib and Seaborn
 - Derived actionable insights to support data-driven business decisions and marketing strategies
 - Improved understanding of customer preferences, helping in targeted recommendations and segmentation
 - Wrote SQL queries to extract and analyze structured data
 - Built interactive dashboards using Power BI to present key insights

❖ **Zepto / E-commerce SQL Analysis:**

- **GitHub:** https://github.com/anushka13-alt/zepto_SQL_data_analysis_project
- Performed end-to-end data analysis on an e-commerce inventory dataset using SQL
- Designed and created database schema, and imported raw CSV data into MySQL/ PostgreSQL
- Conducted data cleaning by handling null values, removing invalid records, and transforming pricing data
- Wrote complex SQL queries (JOINS, GROUP BY, subqueries, aggregations) to analyze product, pricing, and inventory data
- Performed Exploratory Data Analysis (EDA) to identify trends in product categories, discounts, and stock availability
- Generated actionable business insights such as top discounted products, high-MRP out-of-stock items, and category-wise performance
- Estimated key metrics like revenue potential, price efficiency, and inventory distribution to support data-driven decisions
- Developed 15+ SQL queries to analyze pricing, inventory, and category performance

CERTIFICATIONS

- **Data Analytics Bootcamp** - By Alexander Freberg (2026)
- **Foundations of AI and Machine Learning**- Coursera (Microsoft) (2025)
- **Introduction to Business Intelligence** - Infosys Springboard (2026)
